A
REPORT ON

Disaster Management & Rescue Operation

By
Trilok Thakar & NSS Volunteers

On
(23rd July 2018)

PLACE
MECH. WORKSHOP

Seminar On Disaster Management And Rescue Operation To Be Held On **GEC PALANPUR** By **NSS UNIT**. The Definition Of Disaster Is Now All Encompassing, Which Includes Not Only The Events Emanating From Natural And Man-Made Causes, But Even Those Events Which Are Caused By Accident Or Negligence. India's Geo-Climatic Conditions As Well As Its High Degree Of Socio-Economic Vulnerability, Makes It One Of The Most Disaster-Prone Country In The World. A Disaster Is An Extreme Disruption Of The Functioning Of A Society That Causes Widespread Human, Material, Or Environmental Losses That Exceed The Ability Of The Affected Society To Cope With Its Own Resources. Disasters Are Sometimes Classified According To Whether They Are "Natural" Disasters, Or "Human-Made" Disasters. A More Modern And Social Understanding Of Disasters, However, Views This Distinction As Artificial Since Most Disasters Result From The Action Or Inaction Of People And Their Social And Economic Structures.

In This Seminar Students And Our Professor Were Beautiful Trained On Disaster Management By The Main Speaker Trilok Thakar Who Came To The District Disasters Management Bhavan, Collector Office, Palanpur.

In The Training Session, There Are Practical On Rescue operation in Nature And Man-Made Disaster Like Flood, Earthquake, Hurricane, Road Accident.

In This Seminar, Our Principal Dr. K.B. JUDAL Sir, Other Professors & First And Last Year Students Are Participated.

And in the last of seminar, thank you of main speaker of seminar and their whole team by our Nss program coordinate Dr C.G. Prajapati.
